

Giving Back to the Community

With Chinese New Year 2017 still in full swing, EIK Engineering has extended the celebration by organizing a charity event. The staffs of EIK initiated a donation program among themselves, buying and distributing essential supplies to the welfare centre. Spreading joy and warm during this festive season for the less fortunate.

Train the Trainer Program

EIK has a training program for both dealers and end users to ensure the machine is operated at the most productive manner and yet not compromising on safety. The training comprises of class room and field training whereby we ensure the trainers are fully competent from installation, maintenance and operational aspects of the machine.

We are a big advocate on training and post sales support.

Grasberg

CONEXPO 2017

7th -11th March 2017

Venue:
Las Vegas Convention Center

We shall see you at the
Tech Experience, Stand 6531.

Celebrating 10 Years of Excellence

We like to express our heartfelt thanks to everyone, who has been supporting us throughout the past 10 years. Kudos to the EIK team, a group of incredibly bright and motivated people that have come together over the years and has forged a tightly knitted family. Let's continue the path together, for a better EIK and continue to serve our customers with excellences.

EIK has generously donated 1,500 copies of Sin Chew E-Paper Subscription to three local institutions, Foon Yew

Press Conference for Sponsorship

High School, Foon Yew-Kulai High School, and University of Technology, Malaysia. EIK has been working closely with the local leading publisher to launch a digital news platform for the Y & Z generations. Knowledge is wealth, we are in supportive of grooming future leaders.

WE BUILD WITH PRIDE, YOU USE WITH TRUST.
